Within the framework of the COMETiN programme networking events are planned, which offer an open and informal way to exchange information with experts from science, politics and business. Please feel invited to suggest topics and guests for the networking events:

Proposals on topics:	
Proposal on guests:	

4. Question concerning Mentoring

<p>What are your expectations or wishes with regard to your potential mentor?</p>	
<p>Who would you like to suggest as your potential mentor?</p>	<p>Please select a person from related fields of research – not necessarily from the OVGU. The person should be at least 2 career steps above you and you should not be in a dependent relationship with this person (e. g. supervisor of your doctoral thesis)!</p>

5. Declaration

Participation in the COMETiN programme is a valuable opportunity which also involves some obligations for you:

- regular participation in programme events and trainings (Prerequisite for obtaining a certificate)
- active role in building an effective mentoring relationship
- participation in the evaluation of the programme
- keep the programme informed about changes of the personal situation that might be important for the mentoring relationship/ the programme (e. g. accepting a job offer, change of contact details, difficulties in the mentoring relationship)

- I agree to fulfil these obligations and I have enough time to do so.**
- I agree that my personal data is being recorded within the COMETiN database. The data will exclusively be proceeded to other participants of the programme and moreover, will be used in anonymized form to evaluate the programme.
- I agree that pictures of me taken during the programme may be published for the purpose of promoting and presenting the programme.

This a voluntary declaration of content that can be revoked at any time. My rights to information, correction, deletion and data blocking (according to §§19, 29 Bundesdatenschutzgesetz) are not affected by this declaration of consent.

I confirm that the above information is accurate to the best of my knowledge:
